Jeff		Worked on DEX in class -- Worked on P1 items and made some adjustments to trello scruban board added use case numbers to boxes for easier identification and adjusted them so we could see who is working on what added item numbers to project doc	Took quizzes and worked on badges after class worked in class on the user interface and the PDP assignments	worked on Badges and some objects in P1 reviewed revature docs and finished PDP went through QC		
	Yesterday's work:	quizzes p1	P1 P1 P1 badges	P1 P1 P1 Badges		
	Today's work:	time and communication	hoping we can turn 2FA on the playground so we can do the badge work	time		
	Roadblocks:					
	Comments:					
Nick	Yesterday's work:	light studying, beginning to develop use cases, 403/ SF learning	Beginnings of use case implementations, UI learning	Salescloud, servicedcloud stuff, worked on security badge, QC		
	Today's work:	Begin sprint, assign as many use cases as possible (be realistic)	QC? Continue learning SF, implement/review ERD	Security Superbadge, continue learning, port data to new owner		
		Slight frustrations implementing use cases, want to confirm profiles v	Licences restrictions make working very frustrating	General stuff, none in particular		
	Roadblocks:

	Yesterday's work:	Salesforce Notes; Choose one Use Case	Worked on Deep Analyzing First Use Case #6	Worked with Jeff and Taylor on collecting objects for updating the ERD		
	Today's work:	Take further notes on last weeks salesforce notes; Start first use ca	Talk to team about how to update ERD	Making my first Use Case; Work on Super Badge; Review last weeks notes		
	Roadblocks:	none - just time	Our ERD is missing an important object - Certifications Held; ERD has unnecessary objects - Employee (should be User)	User object can't be a Master - solved - use the Contact object in similar situations - specifically when the "worker" doesn't need access to the salesforce org even if they work for the company
